

DARSHAN SHETTY

Product Manager

+91 8446107074 | darshanshetty36@gmail.com | [LinkedIn](#) | Mumbai

PROFESSIONAL SUMMARY

Results-driven Product Manager with 8+ years of experience across B2C and B2B e-commerce, D2C brands, and retail-tech platforms. Proven track record of delivering measurable outcomes — from building customer issue resolution platforms and reducing support dependency, to driving 14% margin uplift and cutting logistics costs by INR 2.4Cr annually. Skilled in end-to-end product lifecycle management, data-driven decision-making, and cross-functional stakeholder alignment. Adept at working in fast-paced, high-growth environments with a strong foundation in analytics, roadmap planning, and user-centered design.

WORK EXPERIENCE

Product Manager | Lovelocal | Mumbai, India

Mar 2025 – Present

- Led development of a Customer Issue Resolution Platform on the B2C app, enabling end-to-end issue resolution with 50% of refund requests raised in-app, reducing dependency on customer support channels.
- Delivered a major B2B Android app upgrade — redesigned product section UI/UX and streamlined inventory workflows with high-price detection and faster stock-price navigation.
- Launched OTP visibility for LL-DP orders on B2B App in collaboration with Design, RN, and Engineering, reducing MDND incidents from 4% to less than 1%.
- Led the end-to-end solution for missing-item complaints affecting 4% of orders, introducing a retailer packing workflow with one-tap item verification, progress tracking, and photo-based proof of packing; reduced complaints by 50%+ and enabled Admin teams to identify potentially invalid claims through retailer-submitted evidence.
- Built refund status API powering chatbot automation — enabled 8–10% chat automation, improved resolution rate to 62–64%, and cut refund-related queries from 9% to 5%.
- Designed and implemented a scalable commission rule engine enabling flexible retailer and category-level commission structures (percentage- and flat-fee based), improving payout accuracy and reducing manual interventions.
- Identified pricing inconsistencies in the product catalog through in-depth data analysis; delivered a dashboard to drive pricing corrections and reduce discounting inefficiencies.

Senior Product Manager | The Good Glamm Group | Mumbai, India

Aug 2021 – Mar 2025

- Analyzed and fine-tuned Partnership Channel traffic across all brands within the Good Glamm Group, resulting in a 20% uplift in Revenue per Visit.
- Implemented data-driven strategies to optimize Paid Channel traffic, leading to a 15% increase in Revenue per Visit across group brands.
- Increased average order value (AOV) by 5% through a 'Buy More, Save More' feature, validated via A/B testing to harness user insights and drive revenue growth.
- Led the build of an in-house Customer Service Bot that improved automated resolution from 60% to 90%, while replacing a ₹3.5L/month third-party platform with an in-house solution capped at ₹30K/month, delivering 91% monthly cost savings.
- Elevated D2C margin by 14% through strategic design thinking in collaboration with cross-functional teams from business and finance.
- Enhanced Order Management System flow, resulting in a 50% reduction in logistics costs (INR 20L/month, INR 2.4Cr/year, through improved order allocation logic with logistics and cross-functional teams.
- Optimized existing WMS and launched a No-Code Warehouse Management System, eliminating developer dependency for new warehouse integrations.
- Orchestrated direct Courier Integration for the Good Glamm Group e-commerce stack, eliminating third-party platform and support fees via API integrations.
- Ensured revenue consistency by overseeing key metrics of Group D2C brands daily through Adobe Analytics, identifying revenue-boosting opportunities and resolving irregularities.

Quality Analyst / Product Owner | MyGlamm (The Good Glamm Group) | Mumbai, India Aug 2018 – Aug 2021

- Oversaw order management for the e-commerce platform by analyzing and testing constant changes in the module.
- Designed and implemented a referral discount dashboard for the CS team, eliminating manual work and improving operational efficiency.

- Worked closely with front-end engineers for API implementation for MyGlamm V2.

Software Test Engineer | 3DI Systems Ltd | Navi Mumbai, India

Aug 2017 – Aug 2018

- Created test plans for the CRM portal and performed UAT to ensure bug-free project delivery.
